Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. THE THEATRES

POLI'S

General approval is being shown this week's bill at Poli's with the clever Clayton White and Marie Stuart in George V. Hobart's musical playlet, "Cherie," as the headline attraction. No comedy sketch has pleased so generally in years as "Cherie." Mr. White and Miss Stuart two of vaudeville's most talented people are inimitable in the parts allotted to them. They have a fine support. "Cherie" is already causing widespread comment.

A figure of paper mache, and wax and steel and other things, that are very appropriate. Gaanda-Humanus is although possessing no life, has many apparently human characteristics. Among other things the figure which is operated by electricity walks, writes on a blackboard, rides a bicycle, climbs stairs, etc. Manchester Bros., who offer this enigma have one of the most remarkable acts in the world today. Gaanda-Humanus is creating widespread interest.

James Harrison, the juggling tramp Hanlon Bros., comedy acrobats; J. Warren Keane, sleight of hand artist; Cook & Stevens, colored entertainers; Hastings & Wilson, "The Lunatics"; and laughable Electograph films complete the excellent bill.

Pat Rooney & Co., in the latest comedy musical melange, entitled "Simple Simon Simple" will be the headline offering at Poli's next week. "Simple Simon Simple" a whirlwind of laughter and music based on a comic supplement cartoon running in a well known New York newspaper is one of the winning big acts of the season. There are fifteen people in the cast, special and elaborate scenery and catchy music. The act should be a hit here. Butler & Bassett, a great fancy skating team who perform on real ice on the stage will be the special feature for next week. This act which is one of the biggest novelties in the world, will be offered here for the first time.

SMITH'S.

Speaking of "A Knight for a Day," the Boston Record of July 14th said: "You'd never think the thermometer was where it was, nor the season where it was, to watch the audience at the Tremont last night under the comic sorcery of 'A Knight for a Day.' Rather, you'd think from the alternating roars and applause

throughout that the period was at some stage of some week in a regular season." The musical success is due here this evening with Frank Deason and the entire original cast and production.

At Smith's to-morrow evening, Arthur Donaldson and his Swedish Players appear in a Swedish version of the farce "A Night Off," and if all present upon this evening do not leave the theatre with sides aching from continuous laughter, it will be because of a lack of the true sense of humor.

The interest of theatregoers will center Friday evening, in William Collier, whom Charles Frohman will present in his new three act farce "The Patriot," written by Mr. Collier and J. Hartley Manners, the English novelist and dramatist. Mr. Collier's popularity is firmly established. His plays are invariably clean and wholesome, and his humor is of the sort that appeals to smart American audiences. His new play, "The Patriot" in which he comes to us after a six months engagement at the Garrick Theatre, is the most ambitious undertaking in which the comedian has ever appeared.

Saturday, matinee and evening Clay T. Vance's company of players appear in Lem B. Parker's new drama of American life entitled "Married for Money." The play is said to be one of absorbing heart interest and the presenting cast, one of unusual excellence.

One may expect to hear the best of music beautifully sung when "The Golden Butterfly" is presented Monday evening next. The explanation is simple. Miss Grace Van Studdiford, the star of the "Golden Butterfly," selected personally every voice, both chorus and principals, engaged for the production of the opera. The advance sale of seats opens to-morrow morning.

It was a half hour before the first fire was under control. No 1 chemical engine was the only company which had reported back when a second alarm was sounded from box 245, Howard avenue and Spruce street at 12-08. The fire this time was under the veranda of a house, owned by R. M. Faulkner, 133 Pine street. Damage was slight.

Disease of Rabies Caused by Germ

Summit, N. J., April 14.—A novel theory to explain the phenomena of rabies and the actions of rabid dogs has been evolved by Benjamin Carpenter of this city, who declares that the disease is caused by a germ, which, like that of tetanus, develops in the soil and infects healthy dogs through abrasions or cuts. The records show that rabid dogs in Summit have followed certain well-defined trails through the city, and this proves, he thinks, that the ripplings of froth from their mouths establish a scent which other mad dogs follow by instinct.

Mr. Carpenter has forwarded his views to the local Board of Health which, however, has not taken the matter up with noticeable vigor.

What is an Orator?

The true orator is the man who can make people laugh, cry and feel what he says. In truth, the genuine orator is the man who has humor enough in his soul to bring the smile to the face, pathos enough in his heart to bring the tear to the eye and dignity enough in his bearing to persuade or move men. He is an exponent of the spoken word. He is a pilgrim moving toward the home of the ideal. He is the embodiment of earnestness, enthusiasm and eloquence.—Exchange.

Pollen Travels Far.

The pollen from pine forests often forms a yellow coating on lakes or on the ocean as far as 200 miles from the shore and has been mistaken by peasants for showers of sulphur. The pollen grains of the pine are provided with hollow vesicles, which buoy them up in the air very much on the principle of a box kite.—St. Nicholas.
